

## HyTrust CloudControl ValueCheck Service

### Service Overview

HyTrust® CloudControl™ ValueCheck Service provides a HyTrust professional services team member who will help your organization maximize the value achieved by your existing HyTrust CloudControl (HTCC) implementation. This service is delivered over one (1) days remotely.

### Delivery Approach

We employ a delivery approach that is informed by years of experience installing, configuring and deploying HTCC. This includes:

- Validation of design
- Best practice product configuration
- Knowledge transfer and discussion of HTCC key features, function and operation
- Troubleshooting tips

### Scope

This service will assess the security impact of HyTrust CloudControl within your organization by:

- Assess dedicated usage of the HTCC Security Proxy by your operations staff
- Identify and Assess Log Viewer Access Denied and Approved High-Risk operations
- Review security-in-depth options including Multi-Factor Authentication, Compliance Assessments, and Root Password Vaulting
- Knowledge transfer and discussion of HTCC key features, function and operation

This service is limited to 1 HyTrust CloudControl instance (high availability pair). Services will be delivered remotely. This service is appropriate for live, production instances of HyTrust CloudControl.

*This Service Brief is for informational purposes only without warranties of any kind, either expressed or implied.*

### Benefits

- **Baseline HTCC Security Value:** your team will gain an appreciation of the value provided by the various HTCC Security functions currently in use within your organization
- **Security-in-Depth best practices:** educate your team on the unused security functionality offered by HTCC
- **Quick time-to-value:** our consultants' product expertise insures a quick assessment and knowledge transfer
- **Deployment aligned to industry best practices:** you gain the benefits of our extensive knowledge base of product optimizations and optimal configurations
- **Mitigation of potential issues:** we move quickly past roadblocks and work seamlessly with product support on your behalf
