HyTrust CloudControl Migration QuickStart Service

Service Overview
HyTrust® CloudControl™ Migration Quickstart Service provides a HyTrust professional services team member for the deployment and configuration of HyTrust CloudControl (HTCC) 6.1 appliances to migrate from existing HyTrust CloudControl 5.6 production systems. This service is delivered over five (5) contiguous days either remotely or on site.

Delivery Approach
We employ a delivery approach that is informed by years of experience installing, configuring and deploying HTCC. This includes:

- Validation of design
- Best practice product configuration
- Knowledge transfer and discussion of HTCC key features, function and operation
- Troubleshooting tips

Scope
Over the period of five (5) days, HyTrust Professional Services will help to migrate the following settings from your existing HyTrust CloudControl 5.6 to HyTrust CloudControl 6.1:

- Up to 5 Role Based Access Control Policies
- Up to 5 Secondary Approval Checks
- 1 Compliance Template (HIPAA, PCI, DOD etc.)
- Multi-Factor Authentication (Ping Federate)

This service is limited to 25 hosts, 2 HTCC instances (1 high availability pair), and 1 vCenter. Services will be delivered either remotely, or on site in one location, over a continuous 5 day period. This service can be used for production or lab environments.

Benefits
- Quick time-to-value: our consultants’ product expertise accelerates deployment
- Deployment aligned to industry best practices: you gain the benefits of our extensive knowledge base of product optimizations and optimal configurations
- Mitigation of potential installation issues: we move quickly past implementation roadblocks and work seamlessly with product support on your behalf
- Training on functionality and troubleshooting: your team gains experience with HTCC quickly and effectively with personalized training from our consultants
