

Are you violating data residency requirements?

Well, you just may be ...

An admin **moves virtualized data sets** across national boundaries—accidentally or maliciously!

An admin **stores backups at multiple remote sites** for continuity planning.

Data residency and data collection concerns continue to remain the top barriers for cloud adoption internationally.

Percent of cloud providers who have **NO steps to address** the European Union court's invalidation of the Safe Harbor Law.

Only 1 in 100 Cloud Providers meet proposed EU data protection requirements.

How are you **keeping up with the constantly evolving** data residency laws and regulations around the world?
